Feather Edge

ProSpec® Feather Edge is a trowelable, rapid-setting underlayment that results in a very smooth, ultra-thin finish applied over a wide array of subfloors.

Features

- No large aggregate, resulting in ultra-thin smooth finish
- Exceptional bond—polymer-modified
- Rapid setting—accepts floor covering in 30 minutes
- Cement based
- Mold and mildew resistant
- Does not require priming
- Contains no protein additives
- Can be sanded to a smooth finish

Feather Edge Applications

- Flash patching and skim coating
- Quick installation of floor covering
- Smoothing cracks, gouges, dings and ridges
- Repairs nearly all types of interior subflooring such as concrete, wood terrazzo and ceramic tile
